PROFESSIONAL SUMMARY

I am proficient in web development technologies like NextJS, Tailwind, and Appwrite, with a strong foundation in Java and Python programming. Experienced in project management, leading successful app development projects and product launches. Seeking internship opportunities in web development and Python to further apply my skills and expertise.

EXPERIENCE

Minecraft Modding

2021-2023

- Developed Minecraft DataPacks using mcfunction, resulting in 650k+ downloads.
- Demonstrated proficiency in modding and content creation for Minecraft Java Edition.
- Worked for top content creators and established new connections

GDSC Solutions Challenge Hackathon

April 2024

- Led a team of 4 individuals to develop a productivity app named "Unwind" using NextJS, Tailwind, and Appwrite, hosted on Vercel.
- Secured a position in the top 10 finalists for the hackathon, showcasing effective project management skills and technical expertise.
- Managed project tasks using Notion, collaborated on design and planning using Figma and FigJam, highlighting strong teamwork and organizational abilities.

Launched SoundXLR on ProductHunt

January 2024

- Led the launch of SoundXLR on ProductHunt, facilitating soundboard creation and sharing.
- Developed SoundXLR to offer a user-friendly platform for soundboard creation and sharing using NextJS.
- Achieved Positive Engagement: SoundXLR received 300 visitors and 1600 page views, indicating strong user interest and engagement.

EDUCATION

Bachelors of Technology in Artificial Intelligence and Data Science) - CS

2022-2026

Ramrao Adik Institute of Technology, Navi Mumbai, IN

(SCGPA: 9.78)

SKILLS

Web Development: NextJS, ReactJS, AstroJS, Tailwind, Appwrite
